## INTELLIGENT TRANSPORTATION SYSTEMS

ITS Products In-Stock and Available for Same-Day Shipping

Intelligent Transportation Systems are advancing rapidly, and rely more than ever on dependable power and high speed data connections to support safe and efficient travel on our roadways. Transtector provides a complete line of surge protectors to guard against damage and disruption from lightning and switching transients for all standard types of ITS equipment, including indoor and outdoor models that protect up to the latest Ethernet/Power over Ethernet protocols.

### TOLL BOOTH
